RECEIVED
OPPT/CSIC

Dear Sirs:

INDSPEC Chemical is pleased to submit the revised substance dossier on CAS number 108-46-3, resorcinol. As you are likely already aware, resorcinol is sponsored under the OECD SIDS Program by Japan and is on track for consideration at SIAM 26.

We request that this revised substance dossier replace the existing data that is presented on the US HPV Challenge Program High Production Volume Information System in a timely manner.

Should you have any questions, please do not hesitate to contact me. If possible, we would appreciate a response indicating when the update has been completed.

Sincerely,

Barbara B. Buchner
